LEGAL & LICENSING

FUND SAFETY

✓ Segregated Funds

To ensure the safety and security of your money, we use a segregated funds policy. This means that your money is stored separately from company funds. This ensures that your money is not being used as IEXS resources and does not fund our activities - it is only for your transactions. What does this mean for you? If IEXS is hypothetically befallen by some kind of misfortune, your money will still be safe, as it has nothing to do with IEXS' s own finances.

✓ Safe deposit and withdrawal

As depositing and withdrawing funds from a real account requires email confirmation, no one can access your account except yourself. This also requires you to use the same payment details when depositing and withdrawing money. Therefore, IEXS will not transfer your funds to an unauthorized third party under any circumstances

✓ Account insurance

IEXS always puts the safety of client funds first. All customers who successfully open an account at IEXS will automatically get account insurance up to USD 500,000 guaranteed by Besso Insurance Group. Policy number B0595MN.

✓ SSL Certificate

We use an SSL certificate to protect all data you enter on our website. SSL, or Secure Sockets Layer, is a protocol that allows a safe communication between you and our websites. Thanks to this, your device establishes a trust with our servers based on unique criteria which permit our servers to identify when it is you sending information, or when someone else is trying to cause harm by pretending to be you, modifying the data you would otherwise send. The SSL protects your data and your account.

✓ Advanced protection

The technical environment of IEXS is monitored 24/7 by a dedicated team composed of highly professional safety engineers and technical experts. We have established and maintain the highest level of protection, so any data loss, damage or other technical issues are very unlikely.

✓ Cooperation with top international banks

In order to further improve the security of funds, IEXS only deposits customers' funds in the world's top banks (British Barclays Bank and United Bank of Singapore).

FEATURING

01

Top liquidity provider

IEXS provides brokerage and clearing services for stocks, indexes (DE30, EU50, HK50 and other market indexes), energy and metals, currency pairs in the world's popular markets, and direct access to major global exchanges and first-class bank liquidity

02

Millisecond transaction rate

The millisecond execution transaction rate exceeds 90%. When millisecond accuracy is required, our ultra-low latency network allows you to enter and exit transactions in precise time.

03

Open transaction

Open trading restrictions are suitable for diversified trading strategies (including high-frequency trading). With the help of automated trading, your trading strategy can match your trading schedule

04

Best bid offer

Screen the best and worst quotations under stable market conditions, and obtain the best prices through our multilateral exchange technology, allowing you to easily enjoy trading advantages.

05

Negative balance protection

Retail customers provide negative balance protection to improve your transactions, and our risk management system ensures that retail customers' losses will not exceed the initial investment. If the balance is negative after the stop loss, IEXS will bear the relevant amount and return the account balance to zero

06

Trading signals and copy trading

MetaTrader 4 can automatically copy deals of other traders. Select your provider, subscribe to a signal and let your terminal copy the provider's trades.

Currency market

The foreign exchange market is open 24 hours a day, 5 days a week. It is the world's largest and most liquid market, with a daily trading volume of more than 4 trillion U.S. dollars, surpassing any transaction-based market

Index

Indexes are the most popular form of CFD. IEXS has a wide range of global indices to choose from, including the Australian S&P 200 Index, the UK FTSE 100 Index, the US E-mini S&P 500 and the US DJIA Index.

Metals and energy

IEXS provides a flexible and easy way to participate in some of the world's most popular commodity transactions, including energy and metals, all in your MetaTrader 4 trading platform.

Stock

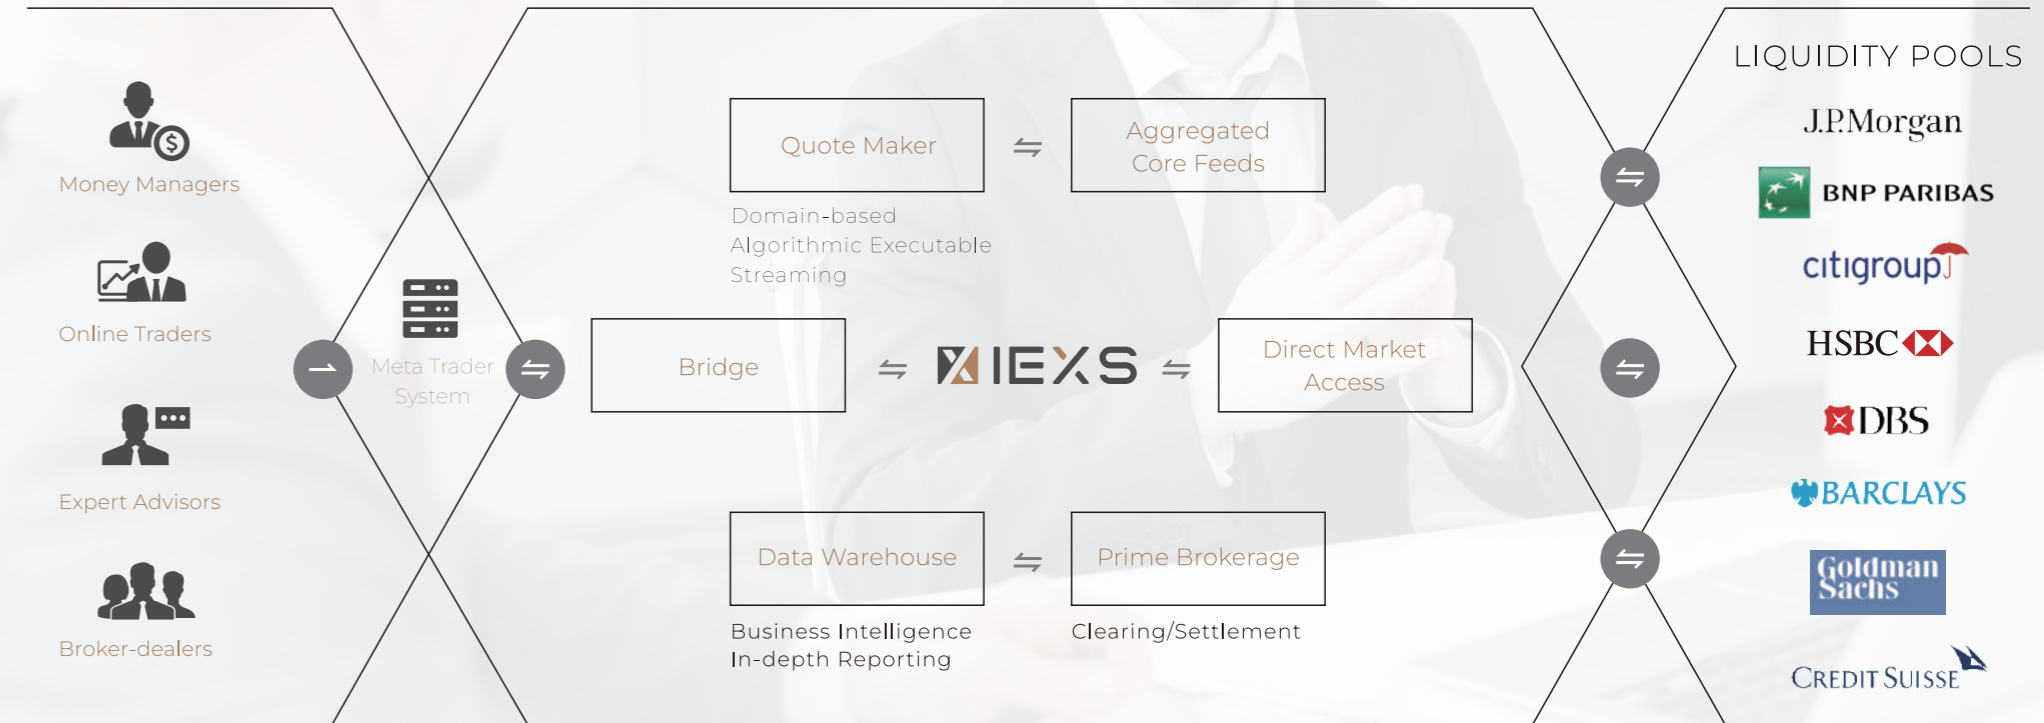

IEXS single-share CFD allows traders to trade the world's most popular companies, trading more than 30 large-cap stock CFDs, with excellent execution speed and exclusive and compact pricing.

Digital currency

Provide a variety of CFDs for digital currencies (Bitcoin, Ethereum, Litecoin, Ripple) against the U.S. dollar, offering investors diverse products and experiences.

PRODUCTS

CLEARING

IEXS STANDARD ACCOUNT

As a trading account, IEXS standard account has many functions and advantages, suitable for starting from novice investors to the most experienced professional traders.

Traditional exchanges have many restrictions on investors, such as high capital requirements and high commission fees. But the modern margin trading industry has changed. IEXS further tightens industry standards in order to provide IEXS customers with an excellent trading experience.

OUR AWARDS

IEXS has continuously received recognition and awards from authoritative institutions, highlighting the company's strengths in fund security, business foundation, and trading services, as well as reflecting the company's customer-centered service philosophy. The award mainly recognizes the best-performing brokers globally and regionally, rewarding companies that provide top-notch trading technology, low-cost trading, comprehensive market research tools, advanced education programs, and world-class customer service to investors or traders.

Best Forex Fintech Broker

In September 2021, IEXS was awarded the "Best Forex Fintech Broker in Europe for 2020" award. The award was given after comprehensive analysis of the best-performing companies in the various markets and is one of the most authoritative and influential annual evaluations in the industry

Best Forex Fintech Broker-Asia

In January 2023, IEXS Securities won the industry authority award - "Best Forex Fintech Broker in Asia for 2022". We stood out as the winning brand in this nomination with our competitive trading technology and world-class customer service.

Best Forex Trading Experience

In November 2025, IEXS was awarded the "Best Forex Trading Experience" award for its exceptional trading experience and customer service. This award recognizes platforms that excel in trading stability, execution speed, user experience, and market innovation.

CONTACT US

We will be equipped with a professional customer support team on standby around the clock to solve any problems for you at any time.
